OKITE®

www.okite.com

OKITE®
THE QUARTZ
SURFACE.

FOR YOUR KITCHEN, YOUR HOME, FOR YOU.

A WIDE RANGE OF COLORS AND COLLECTIONS.
A WORLD OF POSSIBILITIES.

Choose from the many solutions offered by the OKITE® range, to customise your interiors.

OKITE® means quality, elegance and durability.

OKITE® is a specially engineered surfacing material, created from the perfect combination of three elements: quartz (up to 93%), polyester resin and natural pigments.

Quartz is the secret of OKITE® strength and durability, in fact it is the fourth strongest element in the world, with only diamond, sapphire and topaz being stronger.

Our Research & Development Center carefully selects the quartz for OKITE®, using only the purest renewable sources.

**STRONGER THAN
MARBLE OR
GRANITE**

Quartz

1896 Bianco Carrara, Collezione Venati

NON-POROUS AND RESISTANT TO STAINING

The careful selection of raw materials and their unique combination make OKITE® non-porous and highly resistant to staining.

OKITE® does not absorb liquids, so it resists many common products such as coffee, wine, lemon juice, olive oil and vinegar.

OKITE®'s non-porous nature means it has a high degree of resistance to acids too.

Additionally OKITE®'s strength makes it resistant to heat and scratches.

EASY TO CLEAN

OKITE® maintenance could not be easier!

For daily cleaning, all you need to use is a soft cloth, hot water and a normal liquid detergent.

For extra care on stubborn stains, you will only need a non-abrasive sponge and normal kitchen detergent. Good rinsing and drying afterwards will do the rest.

MAXIMUM HYGIENE

The non-porous surface of OKITE® prevents the absorption of liquids or food that can develop into harmful bacteria.

OKITE® does not need any additional chemical protection.

This is why OKITE® gives maximum hygiene for you and your family!

1665 Bianco Assoluto, Collezione Base

THE FINEST ITALIAN
TECHNOLOGY AND
INNOVATION FOR YOUR
HOME AND YOUR
INTERIORS.

OKITE® is the result of years of intense research, development and refinement carried out exclusively by our Research & Development Center at Seieffe Industrie in Montesarchio, Italy.

Whilst originally developed as a kitchen surface, OKITE® has evolved into a versatile product that can be used for many other interior applications, in the bathroom, for flooring and on walls.

OKITE® has set new standards in the world of quartz surfacing and is able to match all your needs.

1114 Nero Assoluto, Collezione Base

NETWORK OF HIGHLY-QUALIFIED FABRICATORS

Seieffe Industrie di Montesarchio (BN)

From production to instalment, the whole OKITE® chain works seamlessly to offer you only the best.

This is why we allow only the most highly qualified fabricators to work with OKITE®.

Their skills and our expert standards transform your ideas into beautiful reality.

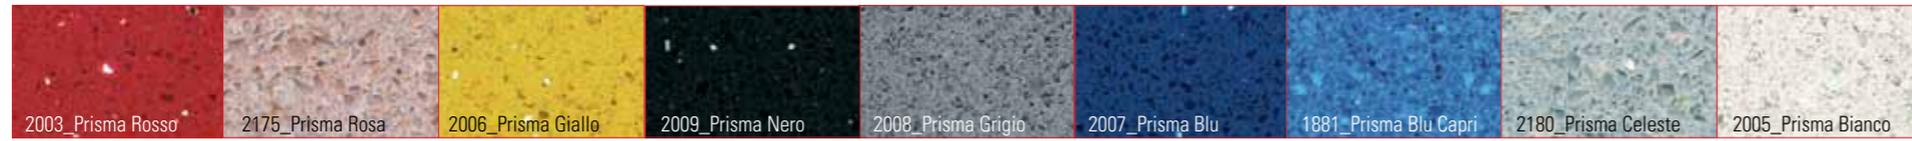

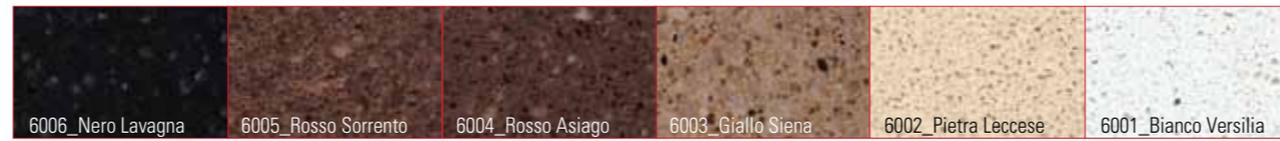

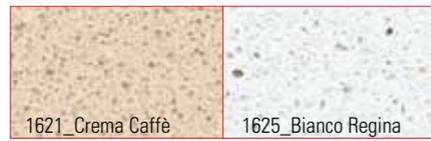

Quality Control

ENVIRONMENTALLY FRIENDLY

At the heart of our company is a strong commitment to the planet. It effects everything we do: from quartz derived form sustainable and high quality resourcing, to the use of recycled glass, to the most efficient use of natural materials, to our sustainable production chain. We try to minimise our impact on the planet and to focus on people in any way we can.

Each colour is purely indicative as the natural stone granules used in production are by nature subject to colour or structural variations. SEIEFFE cannot therefore be held responsible for any slight colour or structural variation that might occur in its products.

ONLY OKITE® FOR KITCHENS, INTERIORS.

When only the best will do choose OKITE®. Transform your interior into the home of your dreams. Beauty and functionality combined in one product.

Only OKITE®, only the best.
