Parapan® Doors...

- ... are the finest quality solid high gloss kitchen doors and drawers on the market.
- ... are SOLID, they are 18mm thick acrylic all the way through, not coated or laminated. This is also why they are so unique!
- ... are hard-wearing, durable, moisture resistant and hygienic, ideal for the kitchen and bathroom environment.
- ... are available in 24 beautiful colours.
- ... are UV stable so will not fade.
- ... are bespoke, they are made to any size to suit your design requirements.
- ... can be thermoformed into curves.
- ... are available with a choice of interesting and unusual edge treatments.
- ... can easily be drilled for hinges and handles.
- ... are easy to maintain with non-abrasive household cleaners. Any eventual scratches can be removed simply by buffing with T-Cut® or Brasso®. Also available is the Parapan care & maintenance kit.
- ... can be cleaned with Parastat, an anti-static cleaner that is available from us.
- ... are also available in 4mm thickness in all the colours for splashbacks, light pelmets, cornices or front panels for built-in appliances.
