

4Single

Height adjustable frame
For seated and standing work
Suitable for kitchens, living rooms, etc.
An extra work place in a modern design

- Height adjustable frame for worktop or tabletop available up to 200x300cm.
- Standard colour of the frame is grey RAL 7021.
- The frame is available with manual or electric height adjustment.
- Any worktop material is easily mounted on the adjustable frame.
- 4Single is really stable even at highest position.
- Height adjustment is done by help of a handle or an infrared hand control.
- A hob or sink can easily be inset to the worktop.
- 4Single is available with brake wheels and can easily be moved around in the room.
- Electrical version may be supplied with a safety strip.
- A frame can be made to suit the size of an existing worktop or tabletop.
- Ideal for the whole family: Big, small, young, elderly or wheelchair users.

ROPOX Tips

- 4Single may be ordered in other colours.
- Maximum load on frame is 130kg evenly distributed over the entire frame. For a heavier load up to 250kg use our increased lifting power.
- Frames larger than 120x120cm will be delivered with an extra rail for stability. The rail may be adjusted sideways.
- 4Single Complete is the 4Single frame with worktop, laminate MB131 LG, light grey.
- Our frames are as standard 4mms smaller than the required length/ width of the tabletop. Therefore, the worktop will be 4mms larger than the frame.
- To have a larger overhang please specify the overhang.
- We strongly recommend safety strip in order to avoid squeezing. It is easily mounted through wholes on the inside of the legs.
